

# Pow-R Wrap

## Fast and easy, water activated fibreglass wrap.

Pow-R wrap is a strong, permanent and economical repair, which works on virtually every kind of pipe and hose. The wrap can be used on all fluid bearing pipes and hoses including potable water, steam, air, gas, sewerage and fuel hydraulics.

It's an easy alternative to traditional methods such as cementing, soldering, welding, sleeving and replacement. The wrap will work on wet, dry, clean, dirty or corroded pipes, and even under water (salt or fresh) and can be sanded and painted if desired.

## Repairs virtually any material...

- Copper
- Rubber
- Plastics
- Fibreglass
- PVC Pipe
- Galvanised
- Concrete
